

Product information

AFO (Animal Free Origin) & Freiheit von TSE/BSE

Based on the information provided by our raw-material suppliers we like to inform you, that risk-materials as animal origin according to regulation EC 999/2001 are not part in our formulas and because of that they will not be present in our following mentioned Semi finished product.

Lignostone®	Durostone® AG	Durostone® EP	Durostone® UP	Durostone® VE
Glastherm® HT	Trovidur® ES	Trovidur® EC	Trovidur® ESA	Trovidur® ET
Trovidur® ESV	Trovicel®	Formaterm®	Polystone® PVDF	Matrox
Polystone® E	Polystone® G	Polystone® D	Polystone® M	Polystone® P
Polystone® E-CTFE	Polystone® Play-Tec	Polystone® Safe-Tec	Polystone® MR	Polystone® DR
SUSTAMID	SUSTAVACU	SUSTARIN	SUSTADUR	SUSTANAT
SUSTAABS	SUSTAPPE	SUSTAPVDF	SUSTAPEEK	SUSTASON
SUSTAPEI	SUSTATRON	SUSTAGLIDE		

In case of using animal additives (for example Stearate), the supplied raw-materials will not have their origin in TSE/BSE critical countries and the material itself is not classified as a risk-material.

Our raw-material suppliers have also confirmed, that the thermal and chemical exposure along the whole manufacturing chain of above mentioned products are more exceeding the critical range of requirements as stated in the Regulation EC 1774/2002 (Annex VI, chapter III) as well as in the Guideline EMA/410/01 Rev.3.

Based on all these conditions, the risk of infect with virus, bacteria or immunological diseases (TSE) could be classified as most impossible.

In general smallest quantities of unwanted substances as ubiquitous present in our environmental could unfortunately not completely be avoided.

We will be only too glad to answer any of your queries.
